

Funding for the Redevelopment of 84th Street

Residents Asked to Approve ½ Cent Sales Tax

"What should be the highest priorities for the City of La Vista to make this community a better place to live?"
Revitalizing 84th Street was the answer specifically identified by nearly 50% of the respondents in the recent National Citizen Survey.

Long before it was evident that the deterioration of the 84th Street corridor was imminent, City officials were discussing the potential need for redevelopment. At the time, it was difficult to determine the extent of the decline and what would be necessary to return the area to its former "Golden Mile" status. When Walmart announced their plans to move out of La Vista, the Mayor and City Council made the revitalization of 84th Street their top strategic priority.

To better understand and address the challenges presented by the decline of the once thriving retail shopping destination,

significant community based planning efforts took place and resulted in A Vision Plan for 84th Street. The study associated with **Vision 84** concluded that 84th Street would never be the regional shopping hub it once was and that the City would need to consider other alternatives. As a result, the plan anticipates transforming the corridor from vacant and blighted into a vibrant and sustainable mixed use development consisting of a town center with opportunities for people to live, work, eat and shop, and an expansive Civic Center Park.

With a plan in place, the focus has now become implementation. **Vision 84** is a massive undertaking with several major components:

- Create a town center
- Improve pedestrian safety and access
- Link the east side of 84th Street to the west side

- Convert the Golf Course into Civic Center Park
- Update and improve existing infrastructure along the entire corridor
- Potential acquisition and demolition of property

(continued page 4)

"The decline of 84th Street did not happen overnight," said Mayor Douglas Kindig. "And bringing it back will not happen overnight either. It will take time, resources, planning, adjustment and re-adjustment. We are beginning just the first chapter of the novel that will be redeveloping 84th Street, and the approval of the additional half-cent sales tax is essential to making our vision become reality."

A MINUTE WITH mayor kindig

Nearly every day, and certainly every time I speak to a community group or attend an event, someone asks me the question, "What are you doing about 84th Street?"

At various stages of the process there have been different answers, but soon I hope to be able to tell people we have a funding source in place to start making progress toward our vision.

On February 18, the City Council will consider placing an initiative on the May 13 primary election ballot asking voters to approve an additional half-cent sales tax to be designated for costs associated with the redevelopment of 84th Street (see story on page 1).

I would encourage you to attend this meeting. If you are unable to attend please do not hesitate to call City Hall for additional information or to voice your opinion.

Our vision for revitalizing the corridor is a solid, aggressive plan that will transform 84th Street. The 84th Street envisioned in the plan would bring sustainable development to the area for many generations to come.

The additional half-cent sales tax is the tool we need to start making meaningful progress.

If the City Council does vote to put this issue on the ballot, I encourage all La Vista residents to get out and vote in May on this very important issue.

Thank you for your consideration.

— Mayor Douglas Kindig

Annual tree lighting celebration kicks off holiday season

The Community Center was the place to be on Monday, December 2, for the City's annual tree lighting celebration. Those in attendance watched Santa light the tree outside City Hall and then enjoyed soup and chili provided by the Mayor and City Council, holiday entertainment from La Vista schools and other community groups, and children visited Santa. To view photos of past events, visit the City's Facebook page, www.facebook.com/cityoflavistagovernment.

Police Department Sponsors Holiday Shopping Program

The Police Department participated in a new program this past December called Cops and Kids. Officer Jamie Brown organized the program, which selected children from La Vista schools whose families would be struggling to provide Christmas

presents. The children were selected by school officials and on a Sunday morning in December, the 32 children were treated to a shopping trip through the Papillion Super Target store and were accompanied by members of the Police Department. Above, the group poses for a photo.

Register to Receive Emergency Notifications

The City's new emergency notification system, provided by Nixle, is now operational!

With the Nixle service, citizens will be able to receive emergency and other notifications on their cell phones, landlines and/or e-mail.

Residents with landline telephones should have received a test call from the City informing them their phone numbers are in the system and giving them more information about how it will be used in the future.

With the test complete, the City can now utilize the Nixle system to call subscribers

to alert them to an emergency situation. Messages sent to subscribers will be one of three types:

- **Alerts** – messages pertaining to urgent matters involving health, life and safety dangers such as water boil orders, and health pandemics, Amber Alerts, and hostage situations.
- **Advisories** – messages sent to residents in a specific geographic area regarding topics such as water main breaks, major road closures, missing children and crime sprees.
- **Community** – messages sent via e-mail only regarding City-sponsored events that

will impact a specific area with a large population.

The Nixle system will notify residents with phone calls, text and/or e-mail messages. Residents can now subscribe to receive these alerts on either the City's website, www.cityoflavista.org/notifications, or by texting La Vista's ZIP code, 68128 to the number 888777.

Residents who received the test call and would like to register their cell phone and/or e-mail accounts, can do so on the website as well.

From Page 1: Funding for the Redevelopment of 84th Street

A potential funding source being considered is an additional ½ cent sales tax. Until recently the sales tax rate in Nebraska was capped at 7% – of that, 5.5% is State sales tax and up to an additional 1.5% may be City sales tax. In 2012, the Legislature granted new authority to cities allowing them to add an additional ½ cent of sales tax for public infrastructure or voter-approved infrastructure related to an economic development program, including redevelopment projects.

Projected revenue in La Vista from an additional ½ cent sales tax is estimated at approximately \$1.1 million annually and would

be **designated specifically for the redevelopment of the 84th Street corridor**. This level of funding would put the City in a position to start making visible progress.

The City Council is scheduled to consider placing the question of an additional ½ cent sales tax on the May primary ballot at their February 18, 2014 meeting. Residents and business owners are encouraged to attend the meeting. It begins at 7 p.m. in the Council Chambers at City Hall, 8116 Park View Blvd.

Annual Clean-Up Days

The annual clean-up days will be held Friday, April 25 and Saturday, April 26 from 7:30 a.m. to 3:30 p.m.

All residents, including residents in the City's Extra-Territorial Zoning Jurisdiction, are encouraged to take advantage of this free disposal service by bringing discarded items to the Public Works Facility, 9900 Portal Road.

Examples of items that will be accepted include major appliances, lawn and household furniture, toys, bikes, lawn mowers, grills and mattresses. There will be a separate dumpster to collect yard waste, leaves and grass clippings. Tree branches will be accepted if their diameter is less than 6 inches. Motor oil and anti-freeze will be accepted but must be free of debris. Household batteries and car batteries will also be accepted. **Paint, tires and hazardous waste will not be accepted.**

In addition, document shredding services will be provided on Saturday, April 26.

Documents will be shredded on site and staples and paper clips do not need to be removed.

Proof of residency will be required; either a valid driver's license or a utility bill. For more information, contact the Public Works Department, 402-331-8927.

2014 Public Works Construction Projects

The following projects should start during the 2014 construction season. Questions concerning any of the projects can be directed to La Vista Public Works Department at 402-331-8927.

- Extension of West Papio Trail – 90th Street to Giles Road.
- Improvements to the intersection of 132nd Street and West Giles Road.
- Channel and bank improvements on Thompson Creek from 72nd Street to Central Park.
- 85th Street Sanitary Sewer Replacement.
- 69th Street Sanitary Sewer Lining.

- Traffic signal at Eastport Parkway and Harrison Street.

Sewer Division Works to Keep Lines Clean Year-Round

Each fall the sewer division works to clear the sanitary sewer lines throughout the city. The crews use special foam, which kills tree roots but not the trees.

The foam takes approximately four to six weeks to kill the roots, after which time the sewer crews go back and cut them out. Roots eliminated by the foam typically don't grow back for two to three years, as compared to roots not treated by the foam which grow back in just a few months.

This past fall the sewer crews performed the root foaming on 72 lines throughout the city, which took approximately two and a half weeks to complete.

Community Development Department Project Updates

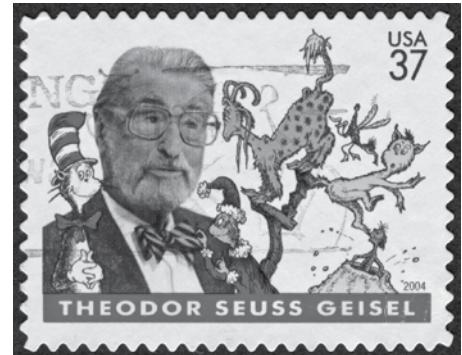

Contractors and building companies are busy in various parts of La Vista completing a wide variety of projects, big and small, for local companies. Pictured is the Mama's Pizza project on 96th Street just north of Giles Road.

For a complete list of ongoing development projects, visit our website, www.cityoflavista.org/constructionupdates.
