RE: Omaha-La Vista WSA
Sanitary Sr Connection Fee Reporting

Mr. Bartlett:

In accordance with our most recent Amendment No. 3 to the Wastewater Service Agreement between the City of Omaha and the City of La Vista, we are submitting payment in the amount of \$41,450.40. This amount is for two apartment buildings located in the portion of our WSA that is subject to Omaha sewer connection fees. I have enclosed a report form identifying the two buildings and the fee that was collected. If you have questions about this report, please contact me.

This submittal makes us current in the remittance of sewer connection fees. We will continue to make quarterly reports, even if no money has been collected, so that there is a definite reporting record for each quarter.

I understand that you will forward the enclosed payment to the City of Omaha Finance Division with instructions on recording the payment.

Note 1: A tract connection fee of \$5,973 per acre was collected at Master Fee schedule rate and the remittance to Sarpy County at \$5,500 per acre should be done. This is because the area is in the City limits and the industrial sewer interlocal agreement provided for La Vista to take ownership of the portion of the industrial sewer in the annexed area. However, during discussions about amendment to WSA with Omaha and Sarpy County it was agreed that Sarpy would retain ownership of the industrial sewer and therefore rights to the tract connection fee in the amount of \$5,500 per acre.

Note 2: The location is not inside the City limits and so the terms of the subdivision agreement were followed which allowed collection of Sarpy fee and a reduced portion of City fee. This fee needs to go to Sarpy and is not part of the industrial sewer ownership discussion.

Note 3: A tract connection fee of \$6,690 per acre was collected at Master Fee schedule rate and the remittance to Sarpy County at \$5,500 per acre should be done. This is because the area is in the City limits and the industrial sewer interlocal agreement provided for La Vista to take ownership of the portion of the industrial sewer in the annexed area. However, during discussions about amendment to WSA with Omaha and Sarpy County it was agreed that Sarpy would retain ownership of the industrial sewer and therefore rights to the tract connection fee in the amount of \$5,500 per acre.

Note 4: This lot is not inside the City limits but is within the ETJ. Sarpy County was contacted and advised that a fee of \$5,500 per acre is to be remitted to Sarpy. There is no subdivision agreement addressing any fee to La Vista in addition to a fee to Sarpy. Therefore, collecting fee at rate set in Master Fee Ordinance and sending the \$5,500 per acre portion to Sarpy.

RE: 8410 South 145th Street
Woodhouse Hyundai
Lot 1, Woodhouse Place
Building Permit-Initial Civil Review

Mr. Sinnett:

Per your request I have reviewed the materials you provided to me in your transmittal dated July 17, 2017 for the proposed Woodhouse Hyundai facility to be located at 8410 South 145th Street. I have not reviewed the architectural, mechanical, electrical or landscaping plans. I have limited my review to the site design and zoning issues. I offer the following comments:

1. The site is not yet a recorded and platted lot. The final plat of Woodhouse Place needs to be recorded along with the related easements at the Sarpy Register of Deeds prior to any issuance of a building permit. The area of Lot 1 is 21.985 acres. There has been no division of Lot 1 for the various buildings requested or proposed.
2. The proposed building site plan does not contain a proportionate share of the total site parking shown in the PUD plans (1468 stalls on Lot 1). The total shown is 217 stalls. The applicant needs to identify when the balance of the stalls to the east of the building will be constructed. The PUD and CUP documents do not contain phasing for the proposed construction. It may be necessary to do an administrative amendment to these documents to address the phasing both in time period and construction limits. Also, the required number of accessible stalls is based on the amount of parking proposed. The count of 217 stalls will require 7 accessible stalls of which 2 will have to be van-accessible. The site plans show only 2 accessible stalls, therefore; additional accessible stalls need to be shown.

3. The applicant needs to complete a Post Construction Storm Water Permit in the Permixon web site. This will require a drainage study that demonstrates the ability to collect and convey storm water runoff from 50-year return frequency storm events to the detention pond in accordance with the design basis of the public storm sewer. The review in Permixon will need to be completed prior to the issuance of a building permit.
4. A sanitary sewer connection agreement needs to be completed with Sarpy County and a copy submitted to the City prior to building permit. There also needs to be a copy of an agreement between the applicant and Sarpy County submitted to the City that indicates Sarpy County has agreed to build a sanitary outfall sewer that will serve this property.
5. The applicant needs to receive final approval for the proposed public sanitary sewer, storm sewer and pavement that will serve Woodhouse Place. Comments on what is required for that approval have been previously provided to the applicant's engineers.
6. The site utility plan, Sheet C1.7, needs to include the proposed fire hydrants (public and/or private) that will serve this facility. The information will be needed for the Fire Marshall's review. The site utility plan indicates a 12-inch water main stubbed into the site that will continue to the south to serve the future buildings. The plans need to clarify if that service is going to be looped back to the MUD main in 145th Street in the future. If so, then it may be necessary to install a backflow preventer at the proposed connection to the public main. Please clarify what is proposed for the future extension of the 12-inch water service.
7. A temporary dumpster is noted on the plans. There are no details about screening of the dumpster. This needs to be reviewed with Planning staff to see if it requires an administrative amendment to the PUD or CUP and what screening is required.
8. You will need to verify that the interior plumbing plan contains adequate grit and grease traps for the floor drains in the service bays that connect to the sanitary sewer.

The platting and subdivision agreement for Woodhouse Place require the collection of a tract sanitary sewer connection fee in the amount of \$5500 per acre for both Lots 1 and 2 (total of 27.412 acres) in order to record the plat since this site drains to the Sarpy Industrial Sewer. This would be a fee of \$150,766.00. I understand that Chris Solberg has received this fee. This fee should be remitted to Sarpy County as soon as the plat is recorded. The applicant also needs to pay the sanitary sewer tract connection for Lot 1 in order to receive the building permit for the proposed Hyundai

facility in the amount of \$6,690 per acre on 21.985 acres or \$147,079.65 from which \$5500 per acre is to be remitted to Sarpy County (in addition to the platting fee noted above) which would be \$120,917.50. The portion of this fee for Lot 1 that should be retained by the City is \$26,162.15. Please check with Chris Solberg to see if he has received this building permit round of the tract connection fee. Due to the unique circumstances for this project in which Sarpy County is to construct a sanitary outfall sewer to serve the property, I recommend that both fees dues to Sarpy County paid to them promptly after we receive them so that funding for the outfall sewer is available. The total of both rounds of tract connection fees due to Sarpy County is \$271,683.50 (\$150,766.00 + \$120,917.50).

The storm water management fee is applicable to this property. The amount to be collected and remitted in it's entirety to the Papio-Missouri River Natural Resources District is \$103,857.14. This is based on 21.985 acres for Lot 1 at the current rate of \$4,724.00 per acre. No portion of this fee is retained by the City. It should be remitted as part of our annual remittance to the Papio-Missouri River Natural Resources District.

The applicant needs to address the items listed above as well as any comments that may come from others. Please note that I have not reviewed the submittal for compliance with the Gateway Corridor regulations as I understand that is being reviewed by others. If you have questions about this fee, please feel free to contact me.

Records Management Software Maintenance Costs

FRMS and ePCR with Infrastructure Costs

Currently only Bellevue Fire (BFD) and Papillion Fire (PFD) utilize the FRMS product. ePCR software maintenance costs and licenses are currently being handled and managed by BFD and PFD. Sarpy County hosts both the FRMS and ePCR systems on the County's infrastructure.

Proposed Costs

Bellevue Fire and Papillion Fire should share the maintenance and hardware hosting costs for the FRMS and ePCR systems. The table below (FRMS-Table-1) shows the expected future costs for the software maintenance and Sarpy County hosting services for these systems.

FRMS-Table-1

FRMS and ePCR (FY18 Expenditures)		
Item	Annual	Description
FRMS – Software Maintenance	\$10,939	FRMS Software
FRMS Hardware (Hosted at Sarpy)	\$870	2 CPU x 2GB x 50GB
FRMS Database Storage	\$24	7 GB
ePCR Database Storage	\$96	32 GB
FRMS Backup/Remote Backup	\$103	48 + 7 + 2 = 57GB
	\$12,032	TOTAL FRMS

I.S. will continue to support these products and will categorize the hours used to support these products in the monthly reports to the cities. It is recommended that all licensing and support contracts be sent to Papillion FD and Bellevue FD to fund directly (as they currently are).

WATER MAIN EXTENSION AGREEMENT

District Job No. 100055001223

THIS AGREEMENT is entered into on _____ 20____, between the METROPOLITAN UTILITIES DISTRICT OF OMAHA, NEBRASKA, ("District") and City of LaVista ("Applicant").

The parties find, determine, and agree as follows:

1. Pursuant to the Nebraska Interlocal Act, Nebraska Revised Statutes Section 13-801 et seq, as amended, ("Interlocal Act"), any power or powers, privileges, or authority exercised or capable of exercise by a political subdivision may be exercised and enjoyed jointly with any other political subdivision, and any two or more political subdivisions may enter into agreements with one another for joint or cooperative action pursuant to the Interlocal Act. Any one or more political subdivisions may contract with any one or more other political subdivisions to perform any governmental service, activity, or undertaking which at least one of the political subdivisions entering into the contract is authorized by law to perform; and
2. The purpose of the Interlocal Act is to permit local government units to make the most efficient use of their powers by enabling them to cooperate with other government units on a basis of mutual advantage and provide services and facilities in a manner and pursuant to forms of governmental organization that will accord best with factors influencing the needs and development of local communities; and
3. The District currently operates potable water services and facilities within the boundaries of Applicant and the Applicant desires construction of a water main within right of way or utility easements of Applicant; and
4. The District and Applicant deem it to be to their mutual advantage to cooperate with each other to provide for construction of the water main as described in this Agreement, and doing so will make more efficient use of their powers and facilities to their mutual benefit and advantage, and will accord best with factors influencing the needs and development of local communities.
5. The District and Applicant enter this Agreement pursuant to the Interlocal Act.

In consideration of the Applicant's payment of Forty Three Thousand Five Hundred Thirteen and 00/100 Dollars (\$ 43,513.00) to the District, receipt of which is acknowledged, the District shall install, as soon as is reasonably possible,

200'+/- of 8" D.I.P.J. water main in LaVista City Centre Phase 1 at S. 83rd Avenue and Brentwood Drive to serve lot 3

as shown on the attached plat marked Exhibit "A", together with such appurtenances, as the District deems necessary (the "main" or "mains"). This consideration includes (1) the estimated (total) cost of the main installation (\$ 43,513). The estimated total cost of the main installation is \$ 43,513 , of which cost the District shall assume \$ None , which is the estimated difference in cost between an 8 " main required and an 8 " main installed.

If the estimated (total) cost for the installation of the main or the estimated contributions to other pioneer mains, or both, are not sufficient to cover the actual costs and/or contributions, Applicant shall pay to the District the actual costs and/or contributions, over the estimated costs and/or contributions. The District may refuse service from the main until such payment(s) has/have been made. If the actual (total) cost for the installation of the main and appurtenances or the estimated contributions to other pioneer mains, or both, are less than the amount paid, the difference, of either or both, whichever the case may be, shall be refunded to the Applicant.

The Applicant shall not change the location or grade of the street(s) over which Applicant has control, as shown on Exhibit "A". The Applicant shall grade the street(s) to conform to Exhibit "A" before the main installation. Where streets will not be paved, the right-of-way ("R.O.W.") shall be graded to conform to the grade that has been legally established by the appropriate governing body. Where the grade has not been established, the grade shall be satisfactory to the District. Where streets are to be paved, the District shall not begin the main installation until the Applicant has completed street paving, storm sewer inlet installation and finish grading of the R.O.W. If, within five (5) years from date the main installation is placed in service, the District deems it necessary to relocate, lower or raise the grade of all or part of the main as a result of the Applicant's failure to have brought the street(s) to grade before the main installation or a change in the grade or location of the street(s), then the Applicant shall pay the District's costs of raising, lowering or relocating the main.

The main shall be owned by and under the control of the District, its successors and assigns.

The District shall use reasonable efforts to avoid damaging or removing erosion control measures. The District may remove erosion control measures if the District determines that such measures interfere with the installation, repair or maintenance of the District's mains. The Applicant shall repair or replace erosion control measures after the District has completed the part of the main installation that required damage to or removal of the erosion control measures. The District shall not be responsible for damage to or removal of erosion control measures and shall not be responsible to repair or replace them. The Applicant shall indemnify the District from all liabilities, federal, state, local or personal, that may arise due to such damage or removal.

This main installation is subject to the approval of the District's Board of Directors. If the installation is not approved, this Agreement is void. If the Applicant cancels this Agreement or fails to perform under it, the Applicant shall pay the District's design costs and all other costs and expenses incurred.

Applicant shall not landscape or allow anyone else to landscape in the street right-of-way or in easements obtained for main installation prior to the main installation. If Applicant does so, the District may remove any landscaping necessary for installation of the water mains. Applicant shall pay the additional costs of main installation caused by such landscaping. Landscaping is defined as the placing of any decorative materials, including but not limited to, the planting of trees or shrubbery and the placing of large rocks or other large decorative objects.

This Agreement is conditioned upon receipt of all permits and easements necessary for the main installation.

If the main installation is delayed due to severe cold weather or when there is more than eight (8) inches of frost in the ground, the District shall not be required to work on the project without additional compensation and/or an appropriate time extension. If frost is more than eight (8) inches in depth, the additional compensation to install and/or the appropriate time extension will be negotiated and will be approved by the Applicant before proceeding.

The Applicant shall not pave the panels of paving where the water main connection will be made at the intersection of S. 83rd Avenue and Brentwood Drive.

Where main installation is required ahead of paving, prior to the start of installation and approved by the District, the Applicant shall submit field notes on construction staking to the District's Engineer. Field notes shall include station, proposed pipe grade, existing and proposed ground elevation over the main, cut required from grade stake to bottom of ditch to provide five (5) feet cover over the main, benchmark location and benchmark elevation. The Applicant shall provide all line and grade stakes necessary for the installation and verify, during construction, that the main is installed to the specified line and grade. *(If Private Streets - Said construction staking shall include the areas of any easements Applicant owns, or have been granted by Third Parties, that are within areas where the District's facilities are to be installed including private access roads, lot lines, etc. in order to assure the District's facilities are installed within said easements.)*

Maximum construction stake spacing shall be fifty (50) feet. Stakes shall be installed along proposed back of curb. Stakes shall include elevation, grade and proposed cut. The Applicant shall stake sewer crossing. Sewer crossing stakes shall include the elevation of the bottom of the sewer pipe and cut required to provide eighteen (18) inch minimum clearance between the bottom of the sewer and the top of the main.

Upon completion of the job and prior to the release of the main for service, the Applicant shall certify in writing to the District that the main was installed to the line and grade indicated on Exhibit "A" and in accordance with the Applicant's line and grade stakes. Failure to do so shall constitute the Applicant's representation that the main was installed to correct line and grade.

In accordance with the Interlocal Act:

1. The duration of this Agreement shall be as follows: This Agreement shall begin upon its execution by both parties and end upon completion of performance of all the obligations of the parties as described herein;
2. There shall be no separate legal or administrative entity created by this Agreement to administer this Agreement.
3. The purpose of this Agreement is to provide for construction of the water main as described above.
4. The City will pay for costs of the water main construction as described above. No separate budget will be established or maintained by the parties apart from normal budget and accounting records maintained by each of the parties;
5. This Agreement will end upon completion of performance by both parties and shall not terminate before that occurs. The District will own the water main at all times, including the end of the Agreement.
6. The parties do not contemplate any levy, collection, or accounting for any tax authorized under sections 13-318 to 13-326 or 13-2813 to 13-2816; and
7. The District's Director of Engineering Design and City Engineer jointly shall be the administrators of this Agreement for the parties.
8. The water main will be acquired, held and disposed of in the manner described in this Agreement.

SUMMARY REPORT UNIFIED SOUTH SARPY WASTEWATER SYSTEM (Unified SSWS)

BACKGROUND INFORMATION:

- Lack of sanitary sewer service south of the ridgeline is increasingly becoming an impediment to economic development and growth in Gretna, Springfield, Papillion, Bellevue in particular, and Sarpy County, and the Greater Omaha Metropolitan area, and the State of Nebraska in general.
- Sanitary sewer service in Sarpy County and the five cities is mainly provided by the City of Omaha
- Sarpy County and the five cities pay for sanitary sewer service; including the Combined Sewer Separation Charges (CSO Charges) where 100% of the CSO mandates are north of Harrison street in Omaha.
- Sarpy County encompasses roughly 159,000 acres. Almost 60% of Sarpy County lies below a hydrological ridge line where no sanitary sewer service is available
- Effectively, the City of Omaha will not accept sewer south of the ridgeline for development in southern Sarpy County
- Over the last two years (2015-2016) Sarpy County, in collaboration and cooperation with the United Cities of Sarpy County updated the original study
- The recent study concluded a cooperative regional system would provide the needed capacity, and increase the economic development and growth competitiveness of the County, metropolitan area and State of Nebraska
- The recent update of the study and the cooperation between the county and cities resulted in a change in state law (LB 253) clearing the way for Sarpy County and the five cities to create an Agency to provide sanitary sewer service to the southern portion of Sarpy County independent of the City of Omaha.
- At the core of providing a long-term regional solution to the wastewater needs in Sarpy County is the need to establish some form of a regional authority or system. A basic foundation of regionalization is that it provides an overall benefit to the regional stakeholders.
- The proposed Agency Agreement also allows for funds for sewer construction, operation and maintenance to be utilized north of the ridge line (Section V(A)(1).
- Absent a regional authority, Sarpy County and all five cities will face challenges to provide sewer service including significant water quality issues, the absence of a regional plan, and lose the economies of scale that will significantly reduce costs for current and anticipated future wastewater treatment needs.
- Additionally, a regional authority increases the likelihood of State and Federal assistance to construct a sewer system.

FISCAL IMPACT

- South of the Ridgeline growth upon full buildout is estimated to generate incremental annual revenue on the order of:
 - \$15 million per year sales tax revenue for Sarpy County cities

- \$45 million per year sales tax revenue for the State of Nebraska
 - \$19 million per year property tax revenue for Sarpy County cities
 - \$21 million per year property tax revenue for Sarpy County government
 - \$76 million per year property tax revenue to local school districts
- The updated regional wastewater study indicates full build out over a 25-50 year period at an estimated cost of 220 million dollars

What is the plan to fund the \$220 million dollar projected cost?

- Phase IA study was completed to confirm key decisions and recommendations from the previous studies, build upon them to refine the solution and develop a plan and framework for regional sewer service, recognizing from the prior planning effort a regional approach is more economical
- Phase 1A proposed the following possible funding scenarios:
 - **Public/Private Partnerships** . An example of a public/private partnership may include financial contributions directly from the local development community and/ or investment from the public whom would get a reliable, consistent rate of return on their investment.
 - **10.0 million grant from the state of Nebraska** Of this grant, \$1.0 million should be placed in cash working capital reserves and the balance of \$9.0 million will be applied against Phase 1A capital projects.
 - **Capital Payments/Connection Fees** from new development
 - **Customer rate revenues**

How much will user rates go up as a result of this project?

- It is anticipated rates for user's north of the ridge line will be negotiated between the individual entities and the City of Omaha.
- The projected O&M usage rate for users within the SSWS area are \$4.60/1,000 gallons. For a customer that uses 7,500 gallons per month this produces a bill (\$34.50/month) that is roughly equal to the current average bill paid by local stakeholders. (pg. 21, Financial Assessment Technical memorandum)

What is this "Agency" and what will it do and who will pay for it?

- The Agency is being created to make efficient use of the Members' powers by enabling them to cooperate with each other and other political subdivisions on a basis of mutual advantage and thereby provide services and facilities in a manner and pursuant to forms of governmental organization that will accord best with geographic, economic, population and other factors
- Sarpy County will be providing \$250,000 as an initial budget with no request being made to cities for a contribution.
- Future budgets of the Agency will be reviewed and approved by each individual governing body
- The initial 4-year capital investment is projected at 22 million dollars (pg. 7, Financial Assessment and Technical memorandum) to be funded through

Public/Private Partnerships, Federal and State Grants, Capital Payments and Connection Fees and Customer Rate Revenues.

- The County Board and each of the five city councils will approve an Agency budget on an annual basis
- Once the budget is approved, the Agency will have authority, within the approved budget, to build the sewer system
- The County Board chair and each Mayor (or their respective designees) will each have one vote. It will take 4 votes to pass any Agency business.
- The Agency cannot encroach upon or into any of the five cities corporate limits or zoning jurisdiction to construct sewers without a specific agreement between the Agency and the respective city.

Summary:

- The Agency's primary role is designed as a mechanism for cooperation and coordination between Sarpy County and the five cities to create development and an enhanced tax base through new growth
- The Agency is designed to allow each entity to maintain their own assets, autonomy and individual self-determination regarding growth

What's Next?

- Once the Agency is created, the Agency will develop Agency Regulations and work towards selecting an engineering firm to assist with potential funding sources and to develop an implementation plan.

**INTERLOCAL AGREEMENT

SECTION II.

PURPOSES OF THE AGENCY

A. The purposes of the Agency are as follows:

1. To make efficient use of the Members' powers by enabling them to cooperate with each other and other political subdivisions on a basis of mutual advantage and thereby provide services and facilities in a manner and pursuant to forms of governmental organization that will accord best with geographic, economic, population and other factors influencing the needs and development of the local communities;

Upon this Agreement's execution, the initial Agency Board Members shall automatically consist of the following: the Chair of the Sarpy County Board and the Mayor of every Sarpy City that enters into this Agreement. Each such initial Agency Board Member shall serve on the Agency Board until he or she appoints a successor or, alternatively, a successor is appointed by his or her respective Member's individual governing body. Such successor representatives shall each serve at the pleasure of the respective Member he or she represents and shall serve on the Agency Board until a subsequent successor is appointed.

Upon request of any Agency Board Member, a Designee shall immediately produce the written designation statement which purports to designate the Designee. Failure to produce such written designation statement upon the request of an Agency Board Member shall result in the purported Designee not being allowed to fulfill the functions of the Agency Board Member during such Agency Board Member's absence. There shall be no regulations regarding the formality of the written designation statement except that it shall be reduced to writing and clearly articulate that its intended purpose is to designate a Designee. Unless additional approval is otherwise required by this Agreement, by law, or by any agreement to which the Agency is a party, all actions of the Agency shall require a majority of all Agency Board Members to pass, regardless of the number of Agency Board Members present and capable of voting at a particular Agency Board meeting. In the absence of a quorum, Agency Board Members present shall not transact any business and the meeting shall be immediately adjourned. In the event a particular Agency Board Member recuses himself or herself, he or she will not be considered capable of voting.

SECTION VI.

PROJECTS CONSISTENT WITH THE MASTER PLAN

The Agency shall work with the Members, consultants, and other outside individuals and agencies as are necessary to plan, develop, and approve a master plan for the design of the Unified SSWS ("Master Plan"). Once approved by the Agency, the Master Plan will be incorporated into and deemed a part of this Agreement by this reference. The Master Plan shall set out a recommended list of priorities in relation to the phasing of the Master Plan. In the event a Member wishes to prioritize a particular project within said Member's corporate limits, ETJ, , areas that lie within a Member's "area of future growth and development" under maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq., or within said Member's wastewater service area designated per interlocal agreement (hereafter "Designated Wastewater Service Area"), which project is consistent with the Master Plan, but is not able to secure the Agency's approval of such prioritization, said Member shall be allowed to independently secure funding for and construct said project. Subject to Agency engineering review and approval, conformity with all applicable rules and regulations including the Master Plan, payment of all applicable

connection fees, and an approved wastewater service and connection agreement with the Agency, said project shall be permitted to connect to and receive service from the Unified SSWS without incurring a penalty above and beyond the applicable connection fees.

SECTION VII.

THE AGENCY'S JURISDICTION

- A. The Agency's Jurisdiction shall be established upon the approval of both the Agency Board and each Member's individual governing body that possess corporate limits, ETJ, Designated Wastewater Service Area, or areas that lie within a Member's "area of future growth and development" under maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq. However, in no event will the Agency have Jurisdiction over any of these areas unless the individual governing body of each Member having any such jurisdiction within said area approves of such area being within the Agency's Jurisdiction.
- B. The Agency is not limited to financing, constructing, equipping, operating, and maintaining a sewer system exclusively within the Agency's Jurisdiction. However, once the Agency's Jurisdiction is established, the Agency shall have sole jurisdiction within such area to authorize, design, and construct the Agency's sewer system to the exclusion of all other sewer systems, unless such other sewer system(s) within such area are otherwise allowed herein, pursuant to law, or by agreement of the Agency.
- C. The Agency's Jurisdiction may be amended from time to time as necessary and upon the approval of both the Agency Board and the Members' individual governing bodies, subject to the provisions of this Agreement.
- D. Any wastewater treatment facilities, sewer systems, sewer lines, or related appurtenances constructed or approved by an individual Member's governing body prior to the establishment of the Agency's Jurisdiction which subsequently fall within the area of the Agency's Jurisdiction shall not be subject to the Agency's Jurisdiction so long as no connection to the Unified SSWS is proposed. However, in the event a Member seeks to connect such wastewater treatment facilities, sewer systems, sewer lines, or related appurtenances to the Unified SSWS, such connection may be permitted subject to Agency engineering review and approval, conformity with all applicable rules and regulations including the Master Plan, payment of all applicable connection fees, and an approved wastewater service and connection agreement with the Agency.

SECTION VIII.

COOPERATION FROM MEMBERS

The Members agree to cooperate, respond to reasonable requests, and make information available to the Agency for the purposes of this Agreement, subject to the protections and limitations of the Nebraska Public Records Statutes, Neb. Rev. Stat. §§ 84-712 through 84-712.09.

SECTION IX.

ANNUAL BUDGET

- A. By April 30th of each year, the Agency Board shall prepare an itemized annual budget for the upcoming fiscal year which, upon approval of the Agency Board, shall be presented to and subject to approval of the individual governing body of each Member. Such annual budget for the upcoming fiscal year shall be considered by the governing body of each Member by May 31st of each year. The exercise of any Agency powers involving financial commitments of any Member(s) must be included in the annual budget, unless otherwise approved by the governing bodies of all such Member(s) pursuant to an applicable Service Agreement. Upon the approval of the annual budget by the governing bodies of all Members, such budget shall immediately be considered adopted and effective to bind the Agency for the upcoming fiscal year.
- B. In the event the governing body of any individual Member does not approve the annual budget for an upcoming fiscal year by May 31st, the annual budget shall be revised by the Agency Board so that no new financial obligations for such non-approving Member shall be included within the revised annual Agency budget and no new Agency projects located within such non-approving Member's corporate limits, ETJ, or Designated Wastewater Service Area, shall be included within the revised annual Agency budget. Additionally, the annual budget shall be revised by the Agency Board so that no new Agency projects shall be located within such non-approving Member's "area of future growth and development" under the maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq., but only in those instances where more than fifty percent of any such new Agency project is proposed to be located within such non-approving Member's "area of future growth and development" as determined by linear measure. In the event fifty percent or less of any new Agency project is proposed to be located within such non-approving Member's "area of future growth and development," the foregoing prohibition shall not apply and such new Agency project may be located within such non-approving Member's "area of future growth and development" without the need to obtain such non-approving Member's authorization.
- C. Any revisions that are made to an annual budget for an upcoming fiscal year pursuant to Section IX(B) shall not relieve the non-approving Member from any existing financial obligations approved as part of a previous fiscal year's budget or as part of a previous agreement to which the non-approving Member was a party, nor shall it

relieve the Agency from any existing project obligations located within the non-approving Member's corporate limits, ETJ, areas that lie within a Member's "area of future growth and development" under maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq., or Designated Wastewater Service Area that were approved as part of a previous annual budget or by a previous agreement to which the Agency was a party. After such revisions have been prepared and approved by the Agency Board, the revised annual Agency budget shall be presented to the governing body of each Member by June 30th of that same year. A revised annual Agency budget shall be considered sufficiently adopted and effective to bind the Agency for the upcoming fiscal year so long as the Agency Board and the governing body of each Member with new financial obligations included within the revised annual budget and the governing body of each Member with Agency projects located within such Member's corporate limits, ETJ, areas that lie within a Member's "area of future growth and development" under maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq., or Designated Wastewater Service Area, has approved the annual revised budget.

- D. Over the course of a fiscal year, the corresponding annual Agency budget may be amended from time to time as deemed necessary or appropriate by the Agency Board. An annual Agency budget amendment shall be considered sufficiently adopted and effective to bind the Agency for the remainder of the applicable fiscal year so long as the Agency Board, the governing body of each Member with new financial obligations included within the annual Agency budget, and the governing body of each Member with Agency projects located within such Member's corporate limits, ETJ, areas that lie within a Member's "area of future growth and development" under maps adopted under the County Industrial Sewer Construction Act, Neb. Rev. Stat. § 23-3601, et seq., or Designated Wastewater Service Area have approved such amendment to the annual Agency budget.
- E. The budget shall be prepared and filed as provided in the Nebraska Budget Act, Neb. Rev. Stat. § 13-501 et seq. as may be amended from time to time.
- F. Member contributions, if needed, will be determined and agreed upon between the Agency and each Member's governing body as part of the annual budget.

SECTION X.

ISSUANCE OF BONDS

The Agency may issue bonds or undertake other forms of indebtedness (hereafter "Agency Bonds"). However, in the event an Agency Bond or other form of indebtedness undertaken by the Agency also involves the resources or funds of any individual Member, no such Agency Bonds may be issued or indebtedness undertaken by the Agency unless a service agreement between the Agency and the applicable Member(s) ("Service Agreement") is executed by the Agency and each such Member that is to be responsible for such debt service, or other related responsibilities, on the applicable indebtedness that is to be created or amended, as applicable. Such Service Agreement

shall provide that additional payments shall be made by the Agency and Member, as applicable, to cover any such debt service or obligations. Such indebtedness shall also be included in the Agency's annual budget, as provided under Section IX. Such Service Agreements are not required for those Agency Bonds supported solely by the resources and funds of the Agency as determined and approved by the Agency Board and the Agency's Bond Counsel. The creation or amendment of a Service Agreement shall not be valid until presented to, and approved by, the Agency Board and the individual governing body of each Member that will be obligated on the debt service, or other related responsibilities, with respect to the Agency Bonds or other indebtedness undertaken by the Agency. No vote of each Member's individual governing body will be required for the Agency to pay down or pay off Agency Bonds when included within the Agency's annual budget unless the Agency intends to pay down or pay off Agency Bonds by issuing additional Agency Bonds.

SECTION XI.

ASSISTANCE FUNDS

Assistance Funds from federal or state sources may be available for Agency approved projects. "Agency approved projects" are those projects that have been authorized by the Agency, subject to the provisions of this Agreement, including but not limited to Section VII(A). This Section shall not apply to Assistance Funds sought and received by a Member's governing body for purposes of non-Agency approved projects. All receipts received by or allocated for an Agency approved project to any Member from federal or state sources for the Unified SSWS or for the purposes of this Agency (collectively, the "Assistance Funds") shall be aggregated and allocated among the Members in proportion to the total allocation of expenses to each Member by agreement of the Members' governing bodies, as the same may be amended from time to time in accordance with the provisions of this Agreement. Assistance Funds allocated to an individual Member are hereinafter referred to as "[Name of Party] Assistance Funds." Each Member shall then apply its Assistance Funds, as aggregated and allocated consistent with the above provisions, first, to the payment of the principal of and interest on the Series of Bonds issued to pay its share of the costs of the Unified SSWS for so long as any Bond of such Series is outstanding and unpaid under the resolution authorizing its issuance, and, second, to the direct payment of the costs of the Unified SSWS allocation to such Member.

SECTION XII.

NOT FOR PROFIT

It is expressly understood that the Agency is a public body and is to be operated not for profit, and no profit or dividend will inure to the benefit of any individual.

SECTION XIII.

MANNER OF ACQUIRING, HOLDING, AND DISPOSING OF PROPERTY

- A. The Agency Board may lease, purchase, or acquire by any other lawful means from a Member, or from any other source, such real or personal property as is required for the operation of the Agency and for carrying out the purposes of this Agreement. The title to all such property, personal or real, shall be held in the name of the Agency; provided, however, that any property, personal or real, which is contributed by and titled to an individual Member or Members, but not purchased by the Agency, may be used by the Agency, but such property shall remain titled to the applicable Member(s), unless otherwise provided by the Agency Board and the title holding Member. The Agency Board may also dispose of such real or personal property as deemed necessary or appropriate by the Agency Board by any lawful means.
- B. In the event an annexation occurs by any Member after the creation of the Agency, which results in any sewer lines and related appurtenances built by the Agency being within the corporate limits of the annexing Member, title to such sewer lines and appurtenances may be transferred to the annexing Member upon the mutual approval of such terms and conditions of a sale or other agreement between the Agency Board and the annexing Member as may be deemed appropriate by such parties.
- C. All conveyances of real property owned or held in the name of the Agency shall be authorized by resolution of the Agency Board and executed by the Chairman on behalf of the Agency. Any such conveyance of any real or personal property held in the name of the Agency, or any interest thereon, in one or more transactions in excess of \$500,000.00 shall require prior approval of the individual governing body of each Member.

SECTION XIV.

LATE ENTRY OF ADDITIONAL MEMBER(S)

This Agreement may be amended to add additional Member(s) to the Agency upon written amendment approved by all governing bodies and executed by all Members. Any additional Member(s) seeking to join the Agency after October 31, 2017 shall be required to pay a prorated share of all of the costs, which the Members have incurred to date, as well as any additional fees, damages, or other costs as unanimously determined by the Agency Board.

SECTION XV.

WITHDRAWAL OF MEMBER(S)

The withdrawal of any Member(s) from the Agency shall require 90 days advance written notice to the Agency of such Member(s)' intention to withdraw from the Agency if such Member is not obligated on any indebtedness under a Service Agreement. No Member shall withdraw from the Agency if such Member is obligated with respect to indebtedness issued under a Service Agreement.

SECTION XVI.

- A. The Agency shall not be dissolved so long as any Agency Bonds are outstanding under the instrument pursuant to which they were issued by the Agency.
- B. Upon dissolution of the Agency, all assets and liabilities of the Agency shall be distributed to the Members on as agreed upon by a majority of Agency members.

Preparation of plans and specifications for this project have been completed by Olsson Associates. The Engineer's Estimate for the proposed construction work is \$3,529,726.80. The recommended schedule for bidding this work is:

UNITED CITIES OF SARPY COUNTY – LOBBYING AGREEMENT	◆ RESOLUTION ORDINANCE RECEIVE/FILE	BRENDA S. GUNN CITY ADMINISTRATOR

SYNOPSIS

A resolution has been prepared to jointly authorize a lobbying agreement with Kissel, Kohout, ES Associates L.L.C. for lobbying services on behalf of the United Cities of Sarpy County along with the cities of Bellevue, Gretna, La Vista, Papillion and Springfield.

FISCAL IMPACT

The cost for La Vista’s participation will be:

- FY18 — \$8,735 (*\$1,840 reduction from FY17 due to additional city*)
- FY19 — \$9,018.80
- FY20 — \$9,312
- FY21 — \$9,614.60

RECOMMENDATION

Approval.

BACKGROUND

As a participant in the United Cities of Sarpy County, the City’s approved budget includes funding for a lobbyist. Our collaboration with the other cities has been successful as it has allowed us to pursue issues of common interest and stay informed during the session regarding any emerging initiatives or issues that could impact our municipalities.

The Mayors of the United Cities have determined that much of the success has been related to our lobbyist and as a result, they are recommending a new four year contract with Joe Kohout from Kissel, Kohout, ES Associates L.L.C. to continue to represent the cities. The contract for year one is \$43,675, which is a 3.25% increase for from FY17. The proposal also includes subsequent increases of 3.25% for years two, three and four of the agreement. With the addition of Bellevue, La Vista’s overall cost has decreased.

The need to be informed and proactive on legislative issues remains a priority of the Mayor and Council and is included in the City’s Strategic Plan.

RESOLUTION NO. _____

A RESOLUTION OF THE MAYOR AND CITY COUNCIL OF THE CITY OF LA VISTA, NEBRASKA AUTHORIZING THE MAYOR TO EXECUTE A LOBBYING AGREEMENT BETWEEN THE UNITED CITIES OF SARPY COUNTY AND KISSEL, KOHOUT, ES ASSOCIATES L.L.C. FOR LOBBYING SERVICES BEFORE THE NEBRASKA STATE LEGISLATURE AND GOVERNOR.

WHEREAS, the cities of Bellevue, Gretna, La Vista, Papillion and Springfield (UNITED CITIES OF SARPY COUNTY) desire to promote the common legislative interest of the five cities which make up the "United Cities of Sarpy County" and

WHEREAS, the cities have agreed that it is in their best interest to hire a joint lobbyist to lobby the Nebraska legislative and executive branches with regard to Nebraska legislation; and

WHEREAS, the Mayor and City Council have identified the need for a lobbyist as a strategic initiative and did appropriate funds in the FY17-18 biennial municipal budget for the hiring of a lobbyist; and

WHEREAS, the mayors of the United Cities of Sarpy County have recommended Joe Kohout with Kissel, Kohout, ES Associates L.L.C. to continue serve as their joint lobbyist.

This Agreement may be terminated before the end of the Term or any subsequent term upon mutual written Agreement of the parties; or by the Client if Client determines that there is "cause" for termination. For the purpose of the Agreement, "cause" shall include, without limitation, the Firm's or Principal Lobbyist's failure, refusal or neglect to perform any duty required hereunder, negligence or alleged criminal misconduct.

3. Compensation and Expenses: The Client agrees to pay the Firm as compensation for all services, hereunder, the sum of Forty-three Thousand, Six Hundred Seventy-five Dollars (\$43,675) during the first twelve (12) months of the term. For the twelve (12) months beginning October 1, 2018 and ending September 30, 2019, Client agrees to pay the firm as compensation for all services, hereunder, the sum of Forty-five Thousand, Ninety-four Dollars (\$45,094). 1, 2020 and ending September 30, 2021, Client agrees to pay the firm as compensation for all services, hereunder, the sum of Forty-eight Thousand, Seventy-three Dollars (\$48,073).

On October 1 of each year that this agreement is in force, or as soon thereafter as is possible, Firm shall invoice Client for total compensation, and this sum shall be due and payable within thirty (30) days of receipt of said invoice. Firm shall deposit and hold the sum in a separate interest bearing client trust account and shall, on the last working day of each month, draw against the total amount on hand in said account a sum equal to Three Thousand Six Hundred Thirty-nine and 58/100ths Dollars (\$3,639.58) for professional services provided during the first twelve (12) months of the term. During the third twelve (12) months of the term, Firm shall draw against the total amount on hand in said account an amount equal to Three Thousand, Eight Hundred Eighty Dollars (\$3,880.00) for professional services. The Firm shall provide a copy of the firm's trust card or similar statement at the end of each month detailing the date on which a withdrawal occurred which is detailed in the paragraph above and the amount of Client's funds on hand in the account.

4. Captions: Captions used in this contract are for convenience and are not used in the construction of this contract.

5. Applicable Law: Except to the extent preempted by federal law, Nebraska law shall govern the terms and performance of this contract. The parties agree to submit and not object to personal jurisdiction of any state court of or located in Sarpy County, Nebraska, and that personal jurisdiction of and in any such court shall be proper, convenient and not objectionable.

6. Interest of the Lobbyist: Lobbyist covenants that he presently has no interests and shall not knowingly acquire any interest, direct or indirect that would conflict in any manner or degree with performance of services required under this contract. Lobbyist will notify the client of lobbyists's intent to represent clients relevant to the fields of interest to the client. This said notification should allow the client and lobbyist to determine potential conflicts. Client recognizes that Lobbyist is engaged in the business of lobbying for a number of clients. From time to time an issue of legislative concern may affect more than one of Lobbyist's clients. Client and Lobbyist further recognize that the legislative interests of the United Cities of Sarpy County and the other clients of Lobbyist may not always be compatible. Any conflict of interest which arises with respect to any legislative issue will be brought to the attention of all affected clients by the Lobbyist and will be resolved in the following manner: 1) An attempt will be made to resolve or compromise the conflict between clients; 2) If a client elects to withdraw the conflicting issue from its legislative program, the conflict of interest will be considered resolved; 3) If a conflict is not resolved by a client's withdrawal of the issue or mutual compromise of the conflicting points of view, Contractor shall continue to represent, on the conflicting issue, only the legislative interests of the client which has had the Contractor for the longest period of time. In this circumstance, Client agrees that it will not object in any manner to this continued representation.

Notwithstanding anything in this paragraph or elsewhere in this Agreement to the contrary, if at any time Client perceives in its sole discretion that Firm may not be able to impartially continue performing lobbying services for Client, Client shall have the option to terminate this Agreement with ten days written notice to the

Firm. In that case, Firm shall pay Client the balance of Client funds remaining in the client trust account at the time and cooperate in transitioning representation of Client to another lobbyist selected by Client. Firm agrees to maintain during and after this Agreement the confidentiality of all Client communications and information obtained pursuant to its representation of Client and to use the same for the sole benefit of Client.

7. Modifications: This contract contains the entire agreement of the parties. No representations were made or relied upon by either party, and there is no other agreement or understanding, other than as expressly set forth herein. No agent, employee or other representative of either party is empowered to alter any of the terms hereof unless done in a written amendment executed by each party.

8. Assignment: Personal lobbying of members of the legislative or executive branches or their offices shall be performed by the Principal Lobbyist unless otherwise agreed by the Client. Other lobbying services shall be provided under the direction and control of the Principal Lobbyist by such members or employees of the Firm as the Principal Lobbyist designates. The Firm may not assign any right under this contract without the express prior written consent of the Client.

9. Strict Compliance: All provisions of this contract and any document that shall be attached hereto by the parties and incorporated herein by specific reference shall be strictly complied with as written.

10. Authorized Representative: In further consideration of the mutual covenants herein contained, the parties hereto expressly agree that for purposes of notice, including legal service of process during the term of this contract and for the period of any applicable statute of limitations thereafter, the following named individuals shall be the authorized representative of the parties:

12. Remedies. Any remedies specified herein for breach of this Agreement shall be cumulative and available to and exercisable by the parties along with all other remedies at law or in equity, including, but not limited to, injunction and specific performance. The municipalities comprising the Client will have the authority to jointly enforce this Agreement pursuant to the Interlocal Agreement, or to severally enforce this Agreement.
