BACKGROUND

Olsson, Inc. has been retained to provide engineering services in the 84th Street public improvement project redevelopment project as a result of a consultant selection process. The proposed Parking Structure No. 1 is located in this redevelopment area and requires close coordination with the public infrastructure being constructed around the structure. An agreement was approved with Olsson, Inc. on June 19, 2018 to provide certain construction phase services (testing, observations, and coordination) for the parking structure for a not-to-exceed fee of \$45,411.00. Amendment No. 1 provided a small increase for some extra concrete strength testing due to early cold weather. The proposed Amendment No. 2 will provide for Olsson personnel to conduct observations on the placement of reinforcing steel and tendons as well as the post-tensioning of the tendons for elongation and cutoff. These services were originally to be provided by HDR, but due to staffing changes are being added to the Olsson agreement and will be deducted from the HDR agreement.
