**FY19 & FY20 Biennial Budget**

**Adopted: September 3, 2019**

### INTRODUCTION

This is the mid-point of the FY19 & FY20 Biennial Budget, entering into year two of the FY19 – FY23 Capital Improvement Program that were adopted by the City Council on September 4, 2018.

The purpose of this update is to:

- Review and refine revenue and expenditure estimates.
- Make adjustments related to Capital projects.
- Ensure the fiscal decisions made in FY19 are reflected in the FY20 budget.

### FY19 PERFORMANCE

#### Revenue

City-wide, net revenues are projected to be approximately \$33.7 million below budget. This is primarily the result of construction project timing and coinciding bond issuance revenues. If the bond issuance revenues are excluded, the city's total revenues are estimated to be \$843,931 (3%) below budget.

A few notes about revenue collections:

**Occupation and Franchise Tax** - A General Business Occupation Tax (GBOT) in La Vista City Centre was anticipated to go into effect in FY19, however, updates to the construction schedule and business openings have delayed the ability to collect the \$500,000 revenue projected in the Redevelopment Fund. The remaining \$12,000 relates to fewer license and permit requests in the General Fund.

**Sales & Use Tax** - Uncertainty continues to exist related to the timing and size of future sales and use tax refunds, the remittance of sales tax by transient businesses and the overall ability of the Department of Revenue to collect from new businesses as they locate within the City. Without the ability to fully audit sales and use tax receipts, forecasting will continue to be a challenge when planning the City's financial future.

FY19 Sales tax receipts are estimated to be \$757,513 less than budgeted because of the timing of new development. This shortfall reduces expected General Fund revenue by \$378,757 and the Debt Service and

Redevelopment Funds each by \$189,379.

**Special Assessments** - Significant Special Assessment Revenue was not anticipated. As such, is \$374,808 considerably higher than budgeted. The City had few special assessment properties most of which are now paid in full.

#### Expense

Operational expenses are estimated to come in \$751,689 less than the budget. Salary & benefit expenses were lower due to various open positions throughout the year. There were also savings in contractual services. Higher maintenance costs reflect additional sand and salt purchases during the adverse winter season.

Capital Expenses are projected to be \$17.6M less than the budget. The Capital Improvement budget underspend is largely due to updates in the City Centre construction schedule of \$6.6M and the lack of progress by the Nebraska Multi-Sport Complex project.

### Fund Balance

The FY19 estimated General Fund balance is within 4% of the budget resulting in an operating reserve of 34%.

The FY19 Debt Service Fund balance is estimated to be lower than budgeted due to fewer debt service payments associated with the construction schedule and partially offset by additional transfers of \$1.1 million to the Capital Improvement Fund to fund street construction projects.

The Capital Improvement Fund is estimated to have less bond revenue because of delays in street improvements at 120th and Giles, which is the primary reason for the difference in fund balance.

The FY19 estimated Economic Development Fund balance difference is related to a Debt Service Fund transfer for the anticipated, but not realized, issuance and debt service payments of a possible grant.

Off Street Parking's estimated 20% variance relates to parking garage #1 construction.

The FY19 estimated Redevelopment Fund balance projected variance is related to not issuing \$17M in bonds and not collecting a General Business Occupation Tax (GBOT) based on updates in City Centre construction and the subsequent timing of business openings.

## REVENUE

## Property Tax

Accounting for approximately 30% of the total revenue budget, the property tax is the City's most stable funding source. The FY20 budget amendment reflects the City's assessed valuation growth of 7.09%. This increases assessed valuation from \$1.54 billion to \$1.65

billion. Because the State of Nebraska's biennial budget submission requirements restrict Year-2 assessed valuation growth projections, a budget amendment was necessary to reflect growth.

Of the \$110 million in property valuation growth, \$15.5 million (14%) is associated with new construction, while \$94.5 million (86%) is associated with an increase in valuation of the existing

commercial and residential properties.

As a result of the valuation increase, the General Fund property tax receipts for FY20 are expected to increase by \$535,453, based on a levy of .49 cents/\$100 of assessed valuation. Property tax receipts in the Debt Service Fund are projected to increase by \$65,566, based on a .06 cent levy. The City's total tax levy will remain at .55 cents.

### Sales and Use Tax

Sales and use tax receipts remain a significant source of the City's overall revenue stream, specifically in the General Fund (24%), Debt Service (58%) and Redevelopment (96%) funds. Budgeting and forecasting for sales and use tax revenue continues to be challenging due to the limited information available from the Nebraska Department of Revenue.

It takes a considerable effort to establish a sales tax revenue budget that accounts for growth and anticipates incentive refunds. Based on the timing of new growth and anticipated refunds, the FY20 sales tax revenue budget was reduced by \$1.8 million. (This includes \$1.5 million in total incentive refunds, which will be replenished through incentive earmarks).

### Restaurant Tax

On September 3, 2019 the City Council adopted Ordinance No. 1365 establishing the Restaurant and Drinking Places Occupation Tax (Restaurant Tax). The 1.5% tax went into effect on October 1, 2019 and is anticipated to generate less than \$700,000 annually.

### Sewer Fees

The FY20 budget was based on a 10% annual increase, associated with City of Omaha projections of a 10% rate increase, which did not occur. The 2019 Sewer Rate Study recommended a customer charge increase of 2% and flow charge increase of 6% over the next 5 years. The result is a net revenue decrease of \$499,857 in the Sewer Fund.

### Bond Proceeds

The FY20 OSP revenue budget included \$5.9 million in bond proceeds in anticipation of constructing the City's second parking garage in City Centre. Construction schedules and the timing of business opening have

been adjusted and the construction of garage #2 will be pursued when the demand exists.

### Parking Garage Fees

The FY20 budget has been adjusted to include only the anticipated parking revenue of \$115,000 associated with garage #1.

## EXPENDITURES

## General Fund

Departments were asked to identify any significant changes to their FY20 budgets. Following a thorough review, it was determined that change requests were minor and could be absorbed within the existing budget by reducing other expenditures.

The FY20 budget was amended to accomodate the interlocal agreement with the City of Papillion and Papillion Rural Fire District for the Fire and Emergency Medical Service Contract which increased by \$109,537. While this was a 5.3% increase, La Vista's portion of the increase actually decreased from 25% to 23.7% based on assessed valuation.

## Capital Improvement Projects

Total capital improvement projects for FY20 are budgeted at \$21.5 million, which is an increase of \$5.6 million. This includes the addition of six new projects totaling \$4.3 million. Specifically: the 96th St Panel Overlay, 108th St Asphalt Overlay, Street Pavement Analysis, Building Demolition (Chili's), Swimming Pool Planning, and the 84th Street Underpass Design. The amended budget also includes \$5.2 million for carryover projects.

### Transfers by Fund

The General Fund's increase in transfers out relates to a \$400,000 transfer to the Qualified Sinking Fund, \$750,000 transfer to the Off-Street Parking Fund, and a \$513,000 reduction of the transfer to the Debt Service Fund.

The Sewer Fund's transfer to the Sewer Reserve fund is reduced by \$444,035 based on the anticipated resulting fund balance, associated with the rate reduction.

Transfers of \$897,408 from the Redevelopment Fund will not be made to Off-Street Parking but instead will be made from the General Fund and Debt Service Fund. Transfers in will include \$200,000 from the Lottery Fund to fund design development for a new swimming pool.

In FY19, the City had anticipated issuing bonds for an economic development grant. If the grant is approved and bonds issued, the payments for the grant will likely not occur until FY21.

The Qualified Sinking Fund increase of \$450,000 is to continue to build the fund intended to be utilized for the acquisition or replacement of tangible personal property with a useful life of 5 years or more.

### Fund Balance

The balance for All Funds is projected to be 12% higher than the original adopted budget and primarily related to bond issuance revenue which may not all be spent in FY20.

The amended General Fund budget is estimated to be \$541,318 lower than the Adopted Budget due to additional transfers to Off-Street Parking and the Qualified Sinking Fund. The Off-Street Parking Fund balance is estimated to decrease to \$234,504 as Bond Proceeds from the construction of garage #1 are spent in early FY20 and as debt service payments begin.

The Redevelopment Fund balance will increase from a \$6.5 million bond which may not all be spent in FY20 on the planned construction projects.

The Public Works Capital Equipment Purchasing Team determined that there was an opportunity to better utilize the funding approved in the FY20 budget for capital equipment and result in an anticipated savings of nearly \$60,000. The changes allow Public Works to continue their goal of replacing larger dump trucks with higher use medium duty vehicles while addressing snow removal needs in the recently opened City Centre development.
