There was no old business.

**4. New Business**

**A. Zoning Map Amendment – Lot 2 Brook Valley II Business Park Replat Three, located northeast of the intersection of Cary Street and S. 117th Street – Pick Up Sticks Properties, LLC**

**Staff Report – Chris Solberg, Deputy Community Development Director:** Solberg introduced the agenda item and the applicants. The applicants are seeking to build a multi-tenant industrial building with space for an indoor recreation facility for Beyond All Stars competitive cheerleading. The building would also include a bay for the property owner's contractor business. In order to allow for the contractor business to locate in this location, they are required to rezone the property. Solberg informed the Commission that the properties to the east and west of this property are already zoned I-1 Light Industrial, and the property to the South is zoned I-2 Heavy Industrial, so this application to rezone to I-1 would be appropriate and match the character of the surrounding properties. Solberg stated that staff recommends approval of the zoning map amendment for Lot 2 Brook Valley 2 Business Park Replat 3 to rezone the property from C-3 Highway Commercial Office Park District and Gateway Corridor Overlay District to I-1 Light Industrial District and Gateway Corridor Overlay District as the request is consistent with the comprehensive plan and zoning ordinance.

Chair Alexander opened the Public Hearing.

**B. Conditional Use Permit for Indoor Recreation Facility – Lot 2 Brook Valley II Business Park Replat Three, located northeast of the intersection of Cary Street and S. 117th Street – Pick Up Sticks Properties, LLC**

**Staff Report – Chris Solberg, Deputy Community Development Director:** Solberg introduced the second part of the process, the Conditional Use Permit (CUP), which applies to all indoor recreational facilities within this industrial zoning district. He stated that staff recommends approval of the Conditional Use Permit for Lot 2 Brook Valley 2 Business Park Replat 3, for an indoor recreation facility, as the request is consistent with La Vista's Comprehensive Plan and Zoning Ordinance.

Commissioner Gahan referenced an email noting concerns about parking and asked for clarification regarding the “4 to 1” parking rule. Solberg explained that, based on the parking requirements outlined in Section 7.06 of the Zoning Ordinance, the minimum off street parking stall requirement for indoor recreational facilities is to provide one stall for every building occupant. This parking requirement is tied to the maximum occupancy permitted through the Conditional Use Permit.

Commissioner Brewer inquired about the applicant’s businesses in Lincoln. The applicant responded that they currently own a roofing company, operate a consulting business for insurance companies, and also rent construction equipment.

Commissioner Gahan asked whether events would be held at this property. The applicant clarified that it would serve strictly as a practice facility. Practices would be scheduled on a rotating basis, and although attendance rates are high, participants would not be arriving or leaving simultaneously.

Commissioner Krzywicki asked how traffic flow would be managed during drop-off and pick-up times, specifically whether vehicles would be stacked out onto public roadways. The applicant explained that the site would operate with a one-way traffic pattern and drop-off and pick-up times would be staggered to prevent congestion.

Chair Alexander opened the Public Hearing.

**5. *Comments from the Floor***

There were no comments offered from members of the public.

**6. *Comments from the Planning Commission***

Commissioner Sargus inquired whether staff had discussed the possibility of holding joint meetings between the City Council and the Planning Commission throughout the year. Solberg informed the Commissioners that this has not yet been advanced, but the topic will be introduced during the upcoming strategic planning session, which is typically held within the first three months of the year.

Commissioner Krzywicki noted a tree limb overhanging the street along Park View Boulevard. In response, Solberg demonstrated the City's new online Customer Relationship Management (CRM) system, SeeClickFix. This application allows residents to report concerns directly to the City. Reports are automatically routed to the appropriate department for resolution. Users can enter their issue into the application and may also upload photos to assist with tracking and follow-up.

**7. *Comments from Staff***
