General Fund

The General Fund is the primary operating fund of the City. It is used to account for all revenues and expenditures not accounted for in other designated funds. It provides for a broad spectrum of programs and critical services such as police, fire, parks and recreation, public works and administrative services. The General Fund is primarily supported by property tax, sales & use tax, occupation taxes, franchise fees, and license and permit fees.

The financial strength of the General Fund is significant and receives considerable focus and review during the budget process because of the implications that it has on the City's overall property tax levy, bond rating, operating cash flows and ability to handle contingencies.

Concluding FY16 Financial Performance

Revenues are estimated to total approximately \$15 million, which is slightly less (\$227,201) than revenues received in FY15. The year-end estimate is an approximate 10.6% increase over the budgeted amount of \$13.6 million. The increase can primarily be attributed to increases in the Sales & Use Tax (31%) and Permits & Licenses (19%) revenues.

Expenditures & Capital for FY16 are projected to be nearly \$14.4 million which is approximately 2.7% less than the budgeted amount of \$14.7 million. This is a \$929,983 or a 7% increase over FY15.

Fund Balance — The difference in estimated revenues and expenditures, combined with a beginning fund balance, contribute to an estimated ending fund balance of \$7.9 million, which is \$1.84 million more than was budgeted.

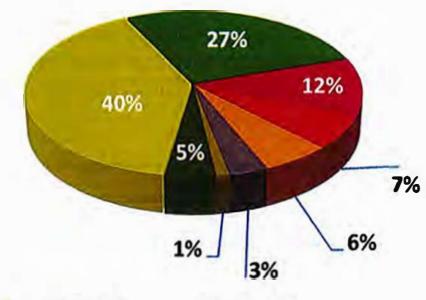

FY17 Budget

Revenues for the proposed FY17 budget are estimated at \$16 million, which reflects growth of 18% over the FY16 Adopted Budget level of \$13.6 million. However, once adjusted for the FY16 year-end estimate, which is approximately \$15 million, the proposed FY17 budget reflects growth of 6.2%. Revenues are expected to increase in both sales & use tax and permits & licenses as a result of new projects.

Expenditures & Capital for FY17 are projected to be \$15.7 million, which reflects growth of 7% over the budgeted amount of \$14.7 million in FY16, or an \$983,580 increase.

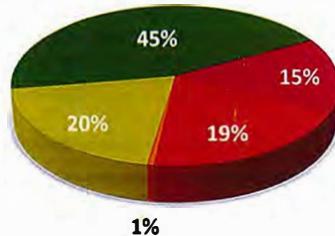

Fund Balance — After expenditures and transfers to the other funds, the budget projects an ending fund balance of \$6.8 million, which is a decrease of \$1.08 million from the FY16 year-end estimate of \$7.9 million. The projected fund balance constitutes a 46% reserve which exceeds the target reserve of 20-25%.

FY18 Budget

Revenues for the FY18 Proposed Budget are estimated at \$16.6 million, which reflects a 4% increase over the FY17 Proposed Budget of \$16 million.

Expenditures & Capital recommended for the proposed FY18 budget are projected to be \$16.5 million, reflecting a 4.7% increase from the recommended FY17 budget.

Fund Balance — After expenditures and transfers to the other funds, the budget projects an ending fund balance of \$5.69 million which is a decrease of \$1.1 million or approximately 16%. The projected fund balance constitutes a 37% reserve, which exceeds the target reserve of 20-25%.

Revenue Summary

In developing the revenue forecast, special attention was given to assessed valuation (property tax), sales tax, hotel occupation tax and gross revenue tax (occupation taxes & franchise fees) as these account for 87% of the General Fund Budget. Other revenues include licenses & permits, charges for services and other miscellaneous income from various funding sources which have been projected based on history and anticipated growth from development. The calculations in this forecast and analysis of results obtained are based on the following assumptions:

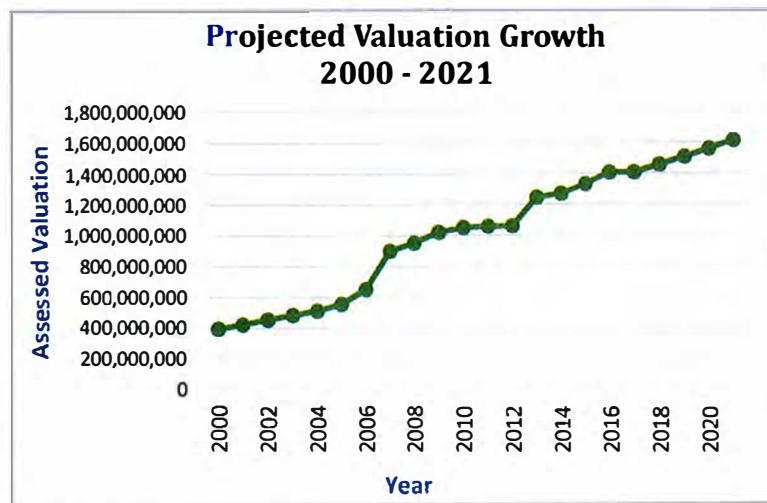

Assessed Valuation

Continued improvement in the overall economy appears to be evidenced via increasing property values. While the City's assessed valuation has averaged about a 5% annual growth over the past five years, if 2013 is excluded (*the year the annexation of SID 59 took effect*), the average annual valuation growth was 1.98%. Based on preliminary information provided by the Sarpy County Assessor's office, the City's valuation for FY17 is projected at \$1,405,909,873 (5.62%). The growth of the City's tax base is positive despite several

vacant commercial properties and home values are regaining momentum as a result of the economic crisis. When filing a biennial budget, the State of Nebraska Auditor requires the use of the same property valuation for both years. As such, there is no property valuation growth shown in FY18. Projections for FY18 – FY21 are based on a continuing moderate growth rate of 3.5%.

The following table and chart show both the City's growth in valuation and projected growth to FY21 (Tax Year 2020). For long range planning purposes, valuations are projected to gradually increase.

Notes:

- FY17 budget is based on 2016 valuation
- State Auditor requires use of same property valuation in both years.

Property Tax

The primary funding source for General Fund activities is property tax, which accounts for 44% of total general fund revenues. For FY17, the City's general property tax levy rate will remain at .41 per \$100 of assessed valuation and is limited by State Statute to a maximum of .45 plus .05 for interlocal cooperation agreements.

Property tax revenues are projected to increase modestly in the General Fund by \$296,562 or 5% in FY17.

The following table shows the budgeted property tax revenue from FY07 – FY18 in the General Fund. The second table shows anticipated property tax projections during the forecast period.

Sales & Use Tax

Budgeting for sales and use tax revenue continues to be challenging as a result of the lack of transparency in the State of Nebraska's economic development incentive refund programs. For example, in FY16 the budgeted sales and use tax for all funds (General, Debt & Redevelopment) was \$6,216,449 million. The FY16 year-end estimate is \$8,147,920, or 31% higher than budgeted. The FY17 budget anticipates \$1,656,095 in refunds based on year-to-date letters from the Nebraska Department of Revenue. Refunds projected for FY18 are \$1,200,000. *(We have recently been notified of a large refunding FY19 and project \$2.9 million in incentive refunds).*

In anticipation of significant ongoing sales tax refunds related to State incentives, we continue to reserve funds in order to make ourselves whole during the months in which sales and use tax funds are withheld by the Department of Revenue. Work is ongoing to refine our planning efforts to mitigate the impact of these substantial occurrences.

The following exhibit identifies the sales tax reserve strategy for future sales tax rebates.

Hotel Occupancy Tax

The City of La Vista has taken great pride in having three top tier hotels including a JQH Embassy Suites, a JQH Marriott Courtyard and Hampton Inn to total 623 rooms. In the spring of 2015, My Place opened a 64-room extended stay hotel and construction of a 72-room Comfort Suites is underway which will bring the City's total number of hotel rooms to 759. The City's Hotel Occupancy Tax rate is 5% of gross receipts from room rentals.

The year-end estimate for FY16 is \$950,000 which exceeds the budgeted amount by \$50,000. The recommended budget of \$950,000 for FY17 is based on the FY16 estimate and a 5% increase is projected for FY18. While the competition is increasing as new hotels continue to be built in the metro area, hotel occupancy tax revenue is expected to continue to increase as a result of new hotels and activity in the City.

Gross Revenue Tax

Another critical source of revenue for the City is the Gross Revenue Tax. The Gross Revenue Tax includes franchise fees and occupation taxes (excluding Hotel Occupation Tax) which are established by franchise agreements and the Master Fee Ordinance. The FY16 year-end estimate is \$5,000 more than the budgeted \$1,030,000. The recommended FY17 and FY18 budgets reflect annual increases of 1% and 2%, respectively.

Licenses & Permits

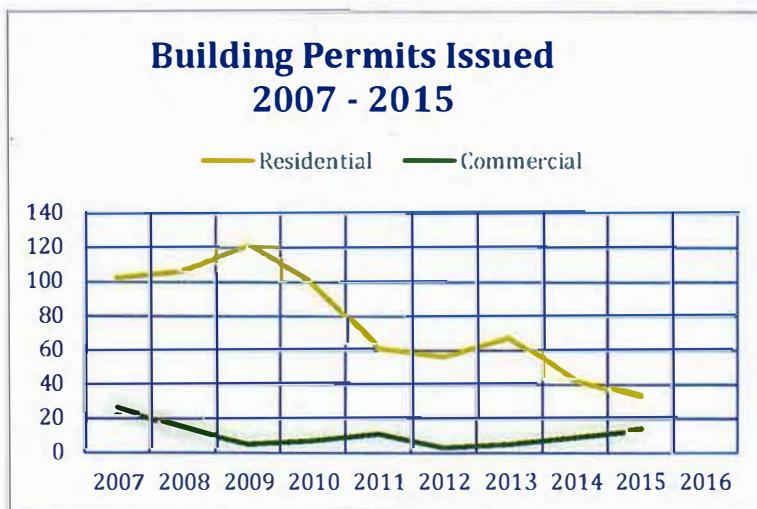

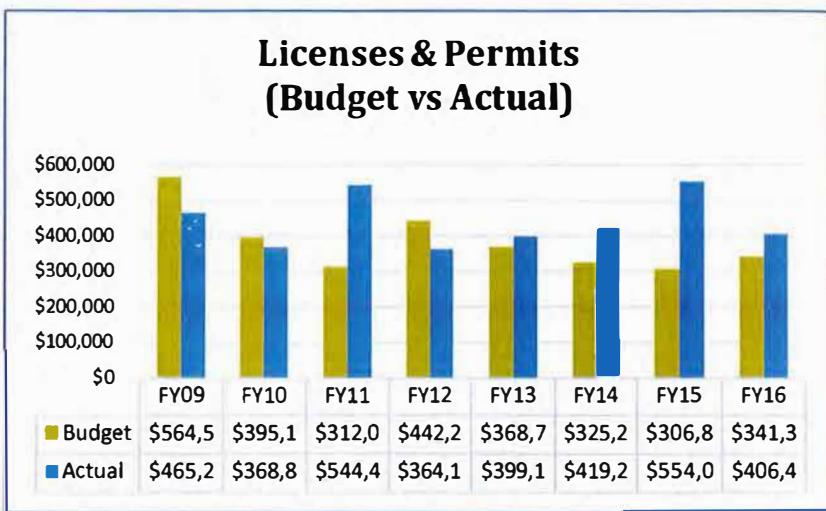

Licenses and permits are used by the City as a means of monitoring certain activities such as the sale of alcohol, building construction, contractor licensing, rental inspection, etc.

FY16 year-end projections reflect a 19% increase over the budgeted amount of \$341,300. A subsequent increase of \$131,136 or 32% over the year-end projections, is projected for FY17 based on anticipated development and construction activity. The same amount is budgeted for FY18. For budgetary purposes it is assumed that there will be a few years of high commercial building permit activity but numbers will begin to moderate and eventually decline as the City's residential area is built out and the City is bounded by neighboring jurisdictions.

Building permit activity for calendar year 2015 included 13 commercial permits valued at \$14.6 million and 32 residential permits valued at \$10.8 million.

Operating Transfers In

Lottery funds are designated for community betterment purposes and are transferred into the General Fund to cover a portion of the Community Relations Coordinator salary and overtime expenses related to Salute to Summer and other community events. The recommended funding for FY17 and FY18 respectively, is \$90,675 and \$93,625.

Expenditure Summary

Expenditures, including capital of \$839,199, recommended in the FY17 budget amount to \$15.7 million, an increase of approximately 7% from the FY16 budget of \$14.7 million. Similarly, the proposed expenditures for FY18 reflect a 5% increase from FY17 to \$16.5 million. Details of major expenditure categories are summarized and discussed as follows:

Personnel Services (Salary & Benefits)

Personnel services include expenditures for salaries, wages and related employee benefits. Personnel services account for the majority of General Fund expenditures at 51% and are budgeted to grow by \$269,363 or 3.5% over the FY16 budget of \$7.8 million. The recommendation for FY18 is \$8.4 million, an increase of \$328,984 or 4%, over FY17.

The proposed budgets for FY17 and FY18 reflect pay adjustments for the third and fourth years of a four-year contract with the La Vista Fraternal Order of Police and a change in the employee performance evaluation and compensation methodologies for employees not covered by a collective bargaining agreement. Members of the FOP will receive salary increases of 2.75% and 3.75% for FY17 and FY18, respectively. For all other employees, a 3% base factor is included for potential salary increases in FY17 in order to get all employees on a common salary increase date (October 1) in conjunction with the new performance evaluation system in which everyone will receive a base factor increase in October 2017. In FY18, a 3.75% salary increase is identified, however, because we will have actual data from performance reviews, this will be updated and incorporated as part of an amended FY18 budget.

Payroll costs in the recommended FY17 budget cover 108 full-time positions as well as 30.3 full-time equivalent positions (FTEs), which includes 1.2 FTE paid intern positions. The following table summarizes the General Fund personnel requests.

The recommended budgets for FY17 and FY18 anticipate a 6% increase in health insurance premiums. In FY14 the City implemented a new approach to health insurance delivery by purchasing a high deductible plan (lowering the City's premiums) and self-insuring the portion between the higher deductible and the deductible offered to employees. The intent is to utilize the premium savings to fund the difference and begin to build a reserve, with an ultimate goal of setting aside enough funding from premium savings to offset the City's entire potential liability and provide additional flexibility regarding health insurance options. After the second year of implementation the program is breaking even.

Currently, all employees who elect to participate in the City's group health/dental insurance pay a portion of the premium. Employees who elect single coverage pay 10% of the cost of that premium and employees who elect any tier of benefit other than single coverage pay 20% of the cost of that premium. The employee's contribution is calculated on a combination of the Blue Cross payment and the City's deductible liability.

Current Health & Dental Insurance Costs

Coverage	Portion of Premium	City Funded	Employee Funded	Total Coverage Cost
Single	10%	\$5,448.48	\$728.64	\$6,177.12
Family	20%	\$13,688.16	\$4,225.68	\$17,913.84

Commodities

Commodities include expenditures for office supplies, operating supplies, equipment and maintenance parts and supplies. Commodities are 3% of the General Fund expenditure budget and total \$484,497 for FY17 and \$504,757 for FY18, a reduction of -5.4% in FY17 and an increase of 4.2% from FY17 for FY18.

Contractual Services

Contractual services include expenditures with outside entities for professional services, technical services, rents and leases, utilities, communications, travel and training, and repairs and maintenance. For FY17, this type of expenditure is budgeted to increase 5% to \$4.3 million and 4% to \$4.5 million in FY18. Contractual services accounts for 27% of the General Fund budget.

Maintenance

Maintenance activities are required or undertaken to conserve as nearly and as long as possible the original condition of an asset or resource while compensating for normal wear and tear. Maintenance accounts for about 3% of the General Fund Budget. The recommended Maintenance budget increased 8% for FY17 and 2% in FY18.

Other Charges

Other charges are those expenses which do not logically fall into any of the scheduled accounts and makes up approximately 2% or less of the General Fund budget in FY17 and FY18.

Capital Outlay

Capital outlay includes expenditures that result in the acquisition of, or additions to, capital assets. To be classified as a capital outlay, an item must generally have an expected life of more than 5 years and a cost equal to or greater than \$5,000 the capitalization threshold for vehicles and equipment. The FY17 budget includes \$839,199 for capital outlay purchases and the FY18 budget includes \$954,742.

Transfers Out

Transfers out total \$1.2 million in both FY17 and FY18 and include the following:

Transfers Out		
Fund	FY17	FY18
Economic Development Program	\$(800,000)	\$(800,000)
Off-Street Parking	\$(590,000)	\$(590,000)
Capital Improvement	\$(66,500)	
Total	\$(1,456,500)	\$(1,390,000)

Cash Reserve

One of the objectives of the long-range financial forecast is to maintain an acceptable reserve level. Ideally it is recommended that the municipal budget maintain a General Fund cash reserve of 20-25%. The recommended FY17 budget maintains a cash reserve of \$6.8 million or 46% and the recommended FY18 budget maintains a cash reserve of \$5.7 million or 37%. Subsequent projections generally fall within the desired reserve range until the end of the forecast period, which is typical because the estimates are much broader.
